

THOUBIC IMRAN M

Technical Support Engineer & Automation Specialist

+91 9514217005 | thoubicimran@gmail.com | [Bangalore, India](#)

[Portfolio](#) | [LinkedIn](#) | [GitHub](#) | [Credly](#)

PROFESSIONAL SUMMARY

Technical Support & Automation Engineer with a B.E. in Computer Science and hands-on expertise in n8n workflow orchestration, Microsoft Power Platform (PowerApps, Power Automate, SharePoint), Docker container management, Python/Streamlit dashboards, and IoT hardware (ESP32). Proven record of converting recurring manual processes into fully automated pipelines — delivering measurable efficiency gains across IT operations, business application development, and infrastructure support. Equally comfortable debugging circuit boards and writing webhook-driven automation workflows.

CORE COMPETENCIES

- n8n Workflow Automation
- Docker Container Management
- Jira / SLA Automation
- IoT Systems (ESP32-CAM, Embedded C++)
- Microsoft PowerApps (Canvas & Model-Driven)
- Power Automate Cloud Flows
- SharePoint Administration
- SQL / MySQL · Git & GitHub
- Python & Streamlit Dashboards
- IT Infrastructure & Hardware Diagnostics
- AWS Cloud (EC2, S3, IAM)
- HTML / CSS / JavaScript

PROFESSIONAL EXPERIENCE

Technical Support Engineer & Automation Specialist

Sep 2025 – Present

Sonovision-Aetos Technical Services Pvt Ltd · Bangalore, India

Workflow Automation & Orchestration

- Orchestrated complex n8n automation pipelines for Jira ticket lifecycle management; automated SLA reminder notifications cut manual follow-up time by 40% and reduced SLA breach rate from 18% to 4%.
- Engineered scheduled n8n workflows for IT asset reporting, transforming a 3-hour manual Excel process into a fully automated 12-minute Snipe-IT-to-email pipeline.
- Architected and maintained Docker environments hosting business-critical internal automation tools, achieving 99.9% service uptime.
- Optimized webhook integrations connecting Jira, SharePoint, and communication platforms into unified notification streams, eliminating cross-platform context-switching.

Low-Code & Business Solutions (Microsoft Power Platform)

- Developed custom canvas and model-driven Power Apps — including an Auction Bidding application adopted across departments — reducing approval processing time by 70%.
- Architected Power Automate cloud flows integrating SharePoint, Outlook, and Microsoft Teams to automate 5+ approval workflows, saving 20+ hours per week organization-wide.
- Managed SharePoint environments including document libraries, custom lists, and permission models, improving team collaboration and data governance.
- Delivered Power Platform training sessions that reduced internal support queries by 60% through improved user self-service capability.

IT Infrastructure & Technical Support

- Provided end-to-end IT technical support including advanced hardware troubleshooting (component-level diagnostics, system imaging) and UAE-specific software administration.
- Built internal infrastructure monitoring scripts using PowerShell and Python/Streamlit, delivering real-time system health visibility and replacing manual status-check routines.
- Maintained 100% uptime for critical business applications and reduced ticket resolution time by 40% through proactive monitoring and documented operational runbooks.
- Engineered a hardware troubleshooting methodology for systematic fault diagnosis, adopted as a team standard and significantly reducing mean time to resolution (MTTR).

Supports & Services Intern

Jun 2025 – Aug 2025

Sonovision-Aetos Technical Services Pvt Ltd · Bangalore, India

- Assisted in developing canvas Power Apps for internal process automation; performance led directly to a full-time offer.
- Created technical documentation for Power Automate workflows, adopted by the team for onboarding and self-service support.
- Provided Level 1 technical support and participated in requirements gathering and user acceptance testing (UAT) sessions.

KEY QUANTIFIED ACHIEVEMENTS

40%	70%	3h → 12m	20h+
Reduction in Jira follow-up time	Faster approval processing (Power Apps)	Asset reporting pipeline (n8n)	Weekly hours automated across teams

TECHNICAL PROJECTS

Jira Ticket Reminder Automation

n8n · Docker · Jira API · Webhooks

- Designed n8n workflow polling Jira every hour, filtering overdue tickets, and dispatching targeted Slack DMs with one-click resolve links.
- Cut SLA breach rate from 18% to 4% and reduced manual follow-up time by 40%; zero ongoing manual effort required.

IT Asset Reporting Automation

n8n · Snipe-IT · Email · HTML

- Scheduled n8n pipeline auto-pulls asset data from Snipe-IT, formats a structured report, and emails stakeholders with html file.
- Report generation time reduced from 3 hours to 12 minutes; fully automated with zero human intervention.

Auction Bidding Power App

PowerApps · Power Automate · SharePoint

- Canvas app with approval workflows, SharePoint data backend, real-time status tracking, and role-based access control.
- Reduced approval cycle time by 70%; currently live and used by multiple teams in production.

IoT Door Security System

ESP32-CAM · Embedded C++ · Web Dashboard

- ESP32-CAM firmware with motion detection, IR/vibration sensors, live video streaming, and a responsive remote-access web dashboard.
- Delivered 24/7 remote security visibility: zero missed incidents since deployment. Full hardware-to-software ownership.

Quantum-Optimized Cloud/Edge Resource Management Simulation

Python · Streamlit · Quantum Algorithms

- Python simulation using quantum-inspired optimisation for task distribution across cloud/edge nodes with interactive Streamlit dashboard.
- Demonstrated 40% reduction in processing time and 25% improvement in resource utilisation vs. classical algorithms. Live at imran005-my-app.streamlit.app.

EDUCATION

Bachelor of Engineering — Computer Science & Engineering

2021 – 2025

Dhanalakshmi Srinivasan Engineering College · CGPA: 7.95 · Graduated 2025

HSC (Higher Secondary Certificate)

2019-2021

Vidya Mandir Matriculation higher secondary school · Percentage:88.2% · Graduated 2021

SSLC (Secondary School Leaving Certificate)

2018– 2019

TSN Matriculation School · Percentage:86.2% · Graduated 2019

LANGUAGES

English — Professional Proficiency **Tamil** — Native Speaker

SOFT SKILLS

-
- Strong verbal and written communication
 - Team collaboration and problem solving
 - Critical Thinking and Decision Making
 - Time management and multitasking
 - Adaptability and eagerness to learn

ADDITIONAL INFORMATION

-
- Open to opportunities in Software Development, IT, and Non-IT roles.
 - Passionate about technology, innovation, and continuous learning.
 - Strong ability to adapt to diverse work environments and manage multiple responsibilities.
